

Draw Sheet

12-word seed - 8 draws of 4 cards (32 entries) - one 52-card deck, reshuffled between every draw

BEFORE YOU START

1. Use a sealed deck bought new from a shop. Remove the jokers and any advertising cards - 52 cards exactly. Check it for drilled holes or clipped corners first: a cancelled casino deck resealed in a box can arrive in a known order, and no check in the generator would notice.
2. WASH IT. Spread all 52 cards face-down on the table and swirl them with both hands for at least 30 seconds, then square the deck up. This destroys the factory order much faster than riffing, and every entropy figure the generator quotes assumes that order is gone.
3. Work offline, away from cameras and phones.
4. After the wash, riffle at least seven times with a cut or strip between each, before EVERY draw. Return the four cards and reshuffle each time.
5. Deal four cards face up, left to right, and write them in that order. Order matters: the same four cards in a different order give a different seed.
6. Write each card as rank then suit, two characters, e.g. AS 7H TD 3C.

MASTER FINGERPRINT

The generator shows eight characters after you enter the draws. Your wallet or signing device shows the same eight after you restore these words. Write both down and compare them character by character.

NOTES

Deck brand and where it came from, how you shuffled, which wallet you restored into, anything you want the next person reading this to know. Do not write the seed words here.

WHEN THE SHEET IS FULL

Type the draws into the generator, then use verify-by-re-entry: it blanks the grid and asks you to type them again, catching a mis-copied card before you fund anything.

A COMPLETED SHEET IS YOUR SEED

These cards alone reproduce the seed phrase. Guard this paper exactly as you would guard the words, and destroy it only after you have tested recovery.

Generator version 2.12. No date is recorded: this tool has no access to the clock by design.
